SAVONG ORGANIZATION CAMBODIA

Community center, Hope, Opportunity, Better Life, Better Future

Education Project #1

Project Name:

Classroom Renovations

Organization Background:

The ultimate goal of Savong Organization Cambodia is to help communities break out of the poverty cycle and create a better future for themselves.

To achieve this aim, in addition to academic scholarship, we also provide empowering education that focuses on practical skills that students can use at any stage of their lives as well as social and emotional skills that encourages them to become self-confident, compassionate and resourceful.

Everything we've done and everything we want to do is only made possible with the generosity of people from all over the world.

With a motivated team of locals and an inspired group of supporters, we are helping young people and their communities to improve their lives.

And we want you to be a part of this!

Project Overview:

We want to be a hub for community development, where students can attend engaging classes that teach practical skills around English, IT, and other areas, as well as essential life skills and soft skills.

English is a primary focus for us as we feel it provides students with greater opportunities for education, for their careers and for access to more resources.

With English, our long-term plan is to open eight (8) levels:

1. Kindergarten
2. Pre-Beginner
3. Beginner
4. Elementary
5. Pre-intermediate
6. Intermediate
7. Upper-intermediate
8. Advanced

We currently have Kindergarten and Beginner classes available to the community.

For the new academic year we want to **open another two English levels; Pre-beginner and Elementary.**

The reason for this is so that students who have completed Kindergarten can be promoted to Pre-Beginner, and students who have completed Beginner level can be promoted to Elementary.

In order to achieve this we **need to renovate two (2) existing spaces into usable classrooms.**

This will allow us to continue to provide engaging classes to more students to not just help them to improve their English, but also to become self-confident, compassionate, and resourceful individuals who pursue their dreams and help to move their communities forward.

Project Objectives:

In order to renovate two (2) spaces into usable classrooms for the following academic year, we **need to raise \$2600 USD by September 2023.**

On the next page you will see an overview of what is involved in the renovations, and what the funds will be used for.

Support Us

We would love to have your support for this project.

To donate, please go to this page here: <https://savong.org/donate/>

Everything we do is only possible with the incredible support of people from all over the world. Regardless of the amount, every amount really counts.

Through the generosity of so many people, we have helped 100s of young, ambitious Cambodian students to pursue an education and to build a brighter future for themselves, their families, and their communities.

We would love to have your support as well.

Together we really can make a difference and help communities break out of the poverty cycle and create a better future for themselves.
