*Community center, Hope, Opportunity, Better life, Better Future*

## Education Project #2

### Project Name:

Tech Resources

### Organization Background:

The ultimate goal of Savong Organization Cambodia is to help communities break out of the poverty cycle and create a better future for themselves.

To achieve this aim, in addition to academic scholarship, we also provide empowering education that focuses on practical skills that students can use at any stage of their lives as well as social and emotional skills that encourages them to become self-confident, compassionate and resourceful.

Everything we've done and everything we want to do is only made possible with the generosity of people from all over the world.

With a motivated team of locals and an inspired group of supporters, we are helping young people and their communities to improve their lives.

And we want you to be a part of this!

### Project Overview:

We are always looking to improve our education programs to **provide students with the best possible opportunities.**

In addition to the practical skills in English and IT, we also focus on providing students with soft skills and life skills, where they can build self-confidence, become more compassionate, develop the resilience and the courage to pursue their dreams.

To do this our teachers provide engaging and interactive lessons to our students that are full of encouragement, creativity and innovative approaches.

We want students to enjoy lessons and to develop a love of learning.

## Project Objectives:

In order to achieve this aim, we are in need of more educational resources that will allow our educational program to develop.

**We want to raise \$1070 USD** in order to purchase equipment to make our lessons more effective, interesting, innovative and creative for our students.

The equipment we want to purchase includes:

- 3 TVs
- A set of speakers
- 1 projector

The following is how this equipment will be used.

Device	Uses
TVs	1 for the Kindergarten class, 1 for Pre-Beginner class, 1 for Beginner class  The TV will be used to display teaching materials, educational videos, and different set of skills to the students on top of the uses of whiteboard and flashcard. We want the education to be fun and innovative, moreover, students are exposed to a variety of learning resources.

<b>Projector</b>	<p>The projector will have multiple purposes; administrative and management staff will use it for training and presentations, and the Elementary teacher will use it for their classes as well for creative lessons that will be engaging and innovative.</p>
<b>Set of speaker</b>	<p>To be used during school events and programs.</p> <p>As the number of students and parents increases, it is difficult to get the message across if we don't have the speaker. Normally, we would rent the speaker, however, it is not the ideal way to do that because it cost more than owning one.</p>

### Proposed Budget:

Device	Quantity	Unit Price	Amount
Tv 43"	3	\$180.00	\$520.00
Projector	1	\$320.00	\$320.00
Set Speaker	1	\$230.00	\$230.00
Total			\$1,070.00

**Project Period:** May 2023-May 2024

## **Support Us**

We would love to have your support for this project.

To donate, please go to this page here: <https://savong.org/donate/>

Everything we do is only possible with the incredible support of people from all over the world. Regardless of the amount, every amount really counts.

Through the generosity of so many people, we have helped 100s of young, ambitious Cambodian students to pursue an education and to build a brighter future for themselves, their families, and their communities.

We would love to have your support as well.

Together we really can make a difference and help communities break out of the poverty cycle and create a better future for themselves.

If you have any questions, you can also contact us here: [info@savong.org](mailto:info@savong.org)

Thank you for your support and generosity.
